

# February 2026

## Digital Mentor's Checklist

### Smartphone Basics

- Understand the Digital Connect program and can navigate to the [digitalconnect.au](https://digitalconnect.au) site
- Aware of Be Connected resources available and can navigate to the [beconnected.esafety.gov.au](https://beconnected.esafety.gov.au) site
- Understand the two types of a smartphone
- Can use basic functions - power on/off, volume, sleep
- Can control their phone using gestures:
  - tapping, scrolling
  - swiping, zooming
- Can find and login to their Apple ID / Google Account

### Data & Networks

- Understand data and what uses the most data
- Understand ways to access the internet (wifi and mobile networks)
- Can locate their wifi settings
- Can identify their device's data connection mobile or wifi
- Are able to assess their mobile usage:
  - who you pay (provider)
  - what you pay
  - what you get (plan inclusions)
  - what you actually use.

OUTCOME: Are they getting the best value for money?
